

Northern Gas Pipeline Project Update

Edition 24 February 2017

Tennant Creek Social Employment Project

Jemena's ground-breaking/unique social employment project in Tennant Creek was kicked off last week by a public information session attended by over 65 local residents.

Tennant Creek business Remote Concrete NT won the tender to deliver the project with Jemena. They will employ around 30 locals to deliver approximately 50,000 timber pipe skids and 90,000 sand and sawdust bags to the NGP.

As an integral part of the Jemena team, Remote Concrete NT organised a great introductory session.

Jemena encourages anyone looking to get back into work to apply. This is a great opportunity for part time work suited to both local men and women.

Tennant Creek local joins the NGP Team

Gavin Butterworth recently joined the NGP team as a Local Participation Project Manager in Tennant Creek. In this role, Gavin is responsible for managing packages awarded to local contractors, in particular the Tennant Creek Social Employment Project.

Gavin comes to Jemena with a wealth of experience in a diverse range of projects, having worked in the mining and civil sectors for in excess of 15 years.

He and his wife Stephanie have lived in Tennant Creek for more than 30 years and have four children Dayne, Liam, Oscar and Mairead.

Gavin said he was "looking forward to working and supporting local contractors to deliver quality works, within the project timeframe and help build great reputations."

If you are interested in jobs and training on the Northern Gas Pipeline project, please visit www.ngpjobsandtraining.com.au where you can express interest and upload your resume. Current job opportunities are also listed on the website.

Questions?

If you have any questions about the project we are happy to meet with you to discuss them.
