Correction to Financial Reporting Template for the twelve months from 1 January to 31 December 2020

Jemena has published this additional information in order to correct an error that has been noted in the published Financial Reporting Template for the twelve months from 1 January to 31 December 2020.

In section 5, cells J12 to M12 read:

\$'000	Revenue \$'000	Total MDQ	WAP (\$/MDQ)
49,870	49,870	52,594	1

We consider that these should in fact read:

\$'000	Revenue \$'000	Total MDQ	WAP (\$/MDQ)
46,375	46,375	52,594	0.88

Whilst Jemena has chosen to correct this error in order to ensure access to the most accurate information available, we consider that the financial reporting guideline template for the year ended 31 December 2020 was, nevertheless, prepared in all material respects in accordance with the Financial Reporting Guideline for Non-Scheme Pipelines (v1.0, 19 December 2017).
