Dear Resident/Business owner,

**Clyde Street Former Gasworks Remediation Project –
Environment Impact Statement Exhibition by the Department
of Planning and Environment: Community Drop-In Session**

Jemena is progressing remediation works at the former Newcastle Gasworks site adjacent to Clyde Street and Chatham Road in Hamilton North.

The Project is declared by the NSW Minister for Planning as State Significant Development (SSD). The site is also subject to Management Order (MO) issued by the Environment Protection Authority (EPA).

We have submitted a development application (DA) to the Department of Planning and Environment (DP&E) for the Remediation Project. The DA including the Environmental Impact Statement (EIS) for the proposal will be on public exhibition from 2 August 2018 until 29 August 2018.

The EIS includes a range of specialist studies to assess the environmental and social acceptability of the proposed remediation work. The EIS will be assessed by DP&E with input from the other relevant agencies. It will need to be approved by the NSW Minister for Planning, along with the DA, before works can commence. The EIS is available to view at the DP&E website: <http://www.majorprojects.planning.nsw.gov.au/page/on-exhibition/>

Jemena has organised a community drop-in session during the EIS exhibition period. Key members of the Project team, including technical and environmental specialists will be available at this session to answer questions, explain the details of the Project, anticipated impacts and to assist with submissions. You are welcome to visit at any time during the session to speak to our Project team.

Date: Tuesday, 14 August 2018

Time: 3 pm – 8 pm

Location: Hamilton North Bowling Club, 31 Boreas Road,
Broadmeadow

For further information about the remediation project and the planned works, please contact us on 1800 571 972 or email clydestreet@jemena.com.au.

Yours sincerely
