1 November 2017

Dear neighbour,

Clyde Street Former Gasworks Remediation Project – Community Drop-In Session

Jemena is continuing with the remediation work for the Clyde Street Former Gasworks site, located adjacent to Clyde Street and Chatham Road in Hamilton North.

The Jemena team is planning the remediation works, in consultation with key stakeholders including the NSW Environment Protection Authority, Newcastle City Council, and the NSW Department of Planning and Environment

Jemena is committed to engaging with the local community about the project. We are planning a public community drop-in session to be held later this month to provide information about the current work and upcoming remediation activities.

Information sessions are informal events to provide information to you and seek feedback from you on the various parts of the project. There will be no formal presentations or speeches given so feel free to visit at any time during the session to speak to our project team.

Date: Wednesday, 15 November 2017

Time: 3 pm – 8 pm

Location: Lambton Bowling Club, 51 Karoola Road, Lambton

For further information about the remediation project and the planned works, please contact us on 1800 571 972 or email clydestreet@jemena.com.au.

Yours sincerely

Ayesha Khan
Community Liaison Manager
