

# CONNECTION APPLICATION PULSE OUTPUT CONNECTION

This form is to be completed for pulse output connection service except for applications lodged through *our electronic business system*. If the annual consumption at the *supply address* is more than 10 terajoules per annum (large industrial customers), please contact us.

The *applicant* hereby applies for a pulse output connection service at the *supply address* in accordance with the terms and conditions for pulse output connection services for premises connected to Jemena NSW gas distribution network (annual consumption less than ten (10) terajoules) (**standard terms and conditions**) which is available on *our* website. *Italicised* terms in this form have the meaning given in those terms and conditions. Please contact us if you would like a hard-copy and we will post it to you.

## Applicant details

Name: \_\_\_\_\_

Address: \_\_\_\_\_

Mobile: \_\_\_\_\_ Phone: \_\_\_\_\_ Fax: \_\_\_\_\_

If *applicant* is a company: Representative/Contact: \_\_\_\_\_ ABN: \_\_\_\_\_

Are you the *owner* of the *supply address*?  Yes  No

If **no**, in what capacity are you making this application [e.g. builder, plumber, occupier/tenant]: \_\_\_\_\_

## Client details (if you are **not** the owner or occupier of the *supply address*)

Name: \_\_\_\_\_ Contact Number: \_\_\_\_\_

Address: \_\_\_\_\_

Email: \_\_\_\_\_

## Plumber/gasfitter/builder details

Name of plumber/gasfitter/builder: \_\_\_\_\_ Licence Number: \_\_\_\_\_

Email: \_\_\_\_\_ Contact Number: \_\_\_\_\_

## Registered Electrical Contract (REC) details

Name of REC: \_\_\_\_\_ Licence Number: \_\_\_\_\_

Email: \_\_\_\_\_ Contact Number: \_\_\_\_\_

## Supply Address details

Unit/House Number: \_\_\_\_\_ Street Name: \_\_\_\_\_

Suburb: \_\_\_\_\_ Postcode: \_\_\_\_\_

Meter Serial Number: \_\_\_\_\_ DPI/MIRN (if known): \_\_\_\_\_

## Technical Information

*Our* customer interface requirements describe *our* design requirements for safe access to a pulse signal from *our* meter set. *You* must supply and install the customer interface equipment (not including the pulse-ready meter set) specified in *our* standard design requirements as part of the pulse output connection process.

Alternatively *you* can elect to design *your* own intrinsic safety barrier to *our* requirements. If *you* elect to provide *your* own design, *we* will charge *you* for a review by *our* electrical consultant to ensure that it meets *our* requirements to provide a connection from *our* meter to the intrinsic safety barrier. This charge will be included in *our offer*.

The customer interface equipment must be installed in accordance with the manufacturer's specifications and comply with all applicable laws, regulations and all relevant Australian Standards including:

- AS 3000 SAA Wiring Rules;
- AS 2380.7 Explosion protection techniques – Intrinsic Safety; and
- AS 2430.1 Classification of hazardous areas – Specific occupancies.

Do *you* agree to supply and install the customer interface equipment specified in *our* standard design requirements

Yes.

No, I will design my **own** intrinsic safety barrier to Jemena's requirements and agree to pay the amount charged by Jemena for a review it's electrical consultant.

## New Connection

If this request relates to a new gas connection, please provide the *Jemena's* Offer number: \_\_\_\_\_

## Existing Connection

If this request relates to an existing gas connection, please provide four (4) photographs in PDF format of the current meter set.

### Acknowledgement and authority (please tick each box to indicate consent to the following statements).

- You acknowledge that we will base our *offer* on the information provided in this *application*, confirm that the information provided in the *application* is true and correct, and agree to notify us if any of the information in the *application* changes.
- If you are not the owner of the *supply address*, you confirm that you are authorised to make this *application* on behalf of the *owner* and that the *owner* has consented to the *application*.
- You consent, and (if applicable) you confirm that you have obtained the *client's* consent, to our collection, use and disclosure of the personal information included in this *application* according to our standard terms and conditions and our privacy policy. Please contact us if you would like a hard-copy of our standard terms and conditions or our privacy policy and we will post you a copy.

Signature of *applicant*: \_\_\_\_\_ Date: \_\_\_\_ / \_\_\_\_ / \_\_\_\_

## What happens next?

All *offers* for meter relocation services are negotiated connection offers. Further information about our negotiated connection contract process is set out on our website: [www.jemena.com.au](http://www.jemena.com.au).

Once you have submitted your *application*, we first need to determine if you have a pulse-ready meter. If not, your meter will have to be replaced with a pulse-ready meter. The charge to replace the meter is based on meter size. Charges for meter replacement will be included in our *offer*.

Once an *offer* is made it remains open for a specified time period before it lapses.

If you accept our *offer*, including payment of any charges, we'll make an appointment with you to attend the site and complete the pulse output connection process and meter change (if required). We will schedule this appointment after you have advised us that an approved interface has been installed.

Your licensed electrician must be on site for the appointment to provide the Certificate of Electrical Safety (CES) for your interface cabinet and hazardous area wiring.

How would you like the offer sent?  Email  Mail
