Tariff Adjustment

The annual tariff adjustment formula is:

$$T_r = T_b \times \left[1 + \left(\frac{CPI_r - CPI_b}{CPI_b} \right) \right]$$

Where:

T_r = relevant Service Charge, applicable from Review Date

T_b = relevant base Service Charge in base year

CPI = Consumer Price Index (All Groups weighted Average of Eight Capital Cities) published quarterly by the Australian Bureau of Statistics.

CPI_r = CPI published for the December quarter immediately before relevant Review Date

CPI_b = CPI published for the December quarter for the year prior to the base year 2020

Review Date = Annually, 1 January each year.
